There was a arge and very carnest meeting at the Rortland Fishing Exchange vesterday to take action on the selzure of the American dehtug vessels. Resolutions uncing the do nothing were adopted decouncing the do nothing policy of the Administration and urging the importance of taking decisive steps at once to protect our interests against the unwarintable course now being pursued by the Dominion Government. The Board of Trade and City Council were also requested to take action on the matter.

If this Administration has any Aic erican policy | we trust that it may give some indication of it before this thing goes much further. It does not seem as though it aught to be necessary for the Canadian authorities to seize our whole tishing and trading fleet before Secretary Buyard can gain sufficient information abon which to determine what action should be taken in the matter.

According to the census of 1880 twentyone Congressmen were assigned in Ohio and the Republican Legislature of 1882, as in duty bou of, redistricted the State. In the, tidal wave of that you the Democrats elected thurteen Congressmen to the Republicans' (ight, although the Democratic plurality on the State ticket was only 12,600. But the Democrats thought that they ought to win two or three more districts, so hey gerrymandered the State in such a shameful way that although the Republicans had over 19,000 planulity of the Congressior al vote in 1884 they elected only ten of the twenty-one Congressm The Legislature has now restored the old districts. Sone doubt was expressed about he House cone tring with the Senate in the passage of the reasure but when the bill came up Aonday it was promptly passed, every Republican voting for it.

The House Menday passed without debate its second ball at this session to provide for "urgent" deficiencies, says a Washington despatch. The first one carried \$664,000 and the one appropriates \$6,220,000, making a total of \$6,593,000. The "regular" deficiency bill is still to come and how many additional mil.icns it will require nobody seems to know. Mr. Adams, of New York, who had churge of the bill Monday, exhibited a large measure of party sagacity, if not the highest degree of statesmanship in for ing it through without debate. "Do many people own failway cars?"
Extremely few aside from the officers of Management Managem the roads. There are Patti, Nilsson, Madame Gerster, Mrs! Langtry and a few dramatic stars, whose managers have ears built for them. Queen Victoria's car' is not nearly so begintful as Madame Pattis." "Who own the most valuable private

ears." A difficult question to answer. Years "A difficult question to answer. Years ago old, Commodore Yanderbilt used to ride in a car he considered simply perfect." That car is now owned by the Wagner Sieeping Car Company, is called the Iroquois, and any one may ride in it who will pay the extra fare. The Iroquois was in the great Spuyten Duyvil smash-up in which General Wagner was killed. The car owned by William H. Vanderbilt was a large one score screen fare for the car which General Wagner was killed. The car owned by William H. Vanderbilt was a large one, some seventy-five feet long, and extremely lixurious. It had handsome pletures on the outside, representing scenery along the Central Railroads Geo. B. Roberts, of the Pennsylvania road, has a fine car. Mr. Thompson, general manager of the same road, who sailed for Europe on April 22, has a car noted for its elegant decorations and for the superior excellence of its cooking arrangements. Rollert Garrett, of the Baltimore and Ohio, and Milton H. Smith, of the Louisville and Nashville, both have superb coaches."

"How about Mr. Gould?"

"How car is not remarkably elegant, and is called I think "Conyoy No. 143." Commodore Garrison used to occupy it years ago. It accommodates twelve people and is comfortable, but not extravagantly fitted up. Mr. Gould spent more money on his yacht than on his cir, because he passes more of his time, on the vessel."

"Have the Southern railroad men any fine cars?"

"Only a few. Mr. Gabbett, of the At-

tine cars?"
"Only a few. Mr. Gabbett, of the At-hanta-and West Point road, has an extremo-"ly plain car; so has Captain Raoul, of the Georgia Central, and so has Colonel Peck, Georgia Central, and so has Colonel Peck, of the South Carolina Hailway, one of the oldest men in the service in America today. The Atlantic Coast Line people own some nice cars, but as a rule the Southern roads do not lay out so much money in decorative art as the Northern corporations. There is no country on the globe, however, that can compare with America in the elegance and beauty of railway equipment.

equipment.

"How about hunting" and fishing cars?"

"There are several of these—two of "There are several of these—two of them quite famous, the itzaak Walton' and the 'Davy Crockett." These cars are not so large as the regular, Pullman coaches, yet they will necommodate ten persons likely, and are provided with gun racks, kennels for the dogs, and all kinds of ingenious axtures. These cars rent for \$35 a day, including cook and waiters—who expect liberal tips, however. There are also cars for California parties; they rent for \$35 a day, which includes pianos and every elegance."

Making up the face, as it is called, is an

art in itself; by it the old man can be made to look young, or at least younger, and the young old. By these arts the famous the young old. By these arts the famous F. FI FILD Y. Dejazet, when 80 years old, could play No. 76 STATE ST., OFFOSITE HILES, BOSTON successfully a young page. Formerly a burnt cork, a piece of chalk and a pot of rouge was all that was necessary; now your well graced actor has his "make-up" box, or dressing case, containing stores of violet powder, fuller's earth, chrome yellow, blue, crayons, umber, cosmetic, black cnamel, "Joining paste," with other un-

low, blue, crayons, umber, cosmetic, black chamel, "Johning pasto," with other unpleasant things.

All have their purpose. Are you the hanted villain skulking from justice in the gwoods? You must rub your cheeks and chin thoroughly with thick blue powder, to chan the the hand have not been able to shave for a week; or should you be an aged crone or hag, a few blue streaks on the arms or hands suggest the well marked veins of old age. To be particularly a wouthful or lover-like you must whiten your face thoroughly, rouge well, up to the eye-lids, and then draw a little brown streak under the eyes, which lends brilllancy. An old man has a very disagreeable task before him. He must rub his cheeks and chin well with fuller's earth; then with a camel's hair brinch proceed to make three dark streaks between the eyes, with long lines from the nostriis to the corners of the mouth, then get on what is oddly called his "white baid, wig," the baid portion of which is fixed, to the forehead by joining paste.

A striking addit onal cleet is produced by giving the effect of teeth being wanting, which at first sight seems an almost impossible thing to db. But in your make-up" you find your black enamel, with which you paint over a couple of ceeth; in a few minutes it sets and hardens, and a most satisfactory and disagreeable ears. But there is an arture called "crape hair," which is gummed on to cheeks, and

The recent completion of an elegant we read in one of the text books on the private car for W. K. Vanderbilt, carries with it some suggestion of the elegance with some low comedy characters, such as a fardolph; etc. it is necessary to alter the

"How much money is invested in private cars?"

"Another hard question to answer." Exclusive of the Pullman cars, there are, say, sixty private cars at \$30,000 each; thirty at \$20,000 each; 100 at \$15,000 each, or altogether 190 cars, representing about \$4,000,000 cash. That is a moderate estimate. There is no way to determine definitely the amount. This is an era of luxury, and nowhere is luxury carried to a higher degree than in the fitting up of private cars."
